

I have heard about the comments made on the Bob and Madison show inciting attacks on bicyclists. We have wide shoulders on many of the roads in Minnesota and it is easy to keep out of a car driver's way. Nevertheless drivers often yelled and thrown things. Both of my children race and I always have anxiety that someone will misjudge the power of their vehicle and either deliberately or accidentally harm or kill one of them while they are training. To have radio personalities endorsing hostile behavior is life threatening. To legitimize this type of behaviour should be as offensive as insiting a hate crime against ethnic or religious groups. It does not take much for a prank to become deadly. Please take action on this matter.
